**Views:**

- *Although GST collections have declined as compared to April 2024 due to year-end tax payments, they remain robust for May 2024 also with more than Rs.1.70 lakh crore collections. This trend aligns with improved GDP figures, signaling increased economic activity and strong domestic demand.*
- *The robust GST collections for the current fiscal also indicate growing consumer confidence, efficient tax administration, and an expanding tax base.*
- *However, a confluence of factors, including stagnant automobile sales and summer heatwaves adversely impacting consumption patterns across India, may lead to lower or flat GST collections for June 2024, estimated to be in the range of 1.70 lakh crore to 1.75 lakh crore.*
